

NEW!

DAYTON AUDIO *Alexander* by PBN Audio

Never has a build-it-yourself package yielded so much sonic power

Another breakthrough audiophile system from **Dayton Audio** and **Peter Noerbaek**. One affordable price for the entire package, ready for your step-by-step assembly.

The internal parts from Dayton Audio are of the highest quality. The twin woofers are mated with a built-in 1 kW amplifier giving extra power and precision for an extra-crunchy bass. Optional top-mounted tweeter (see above) provides a full dynamic range.

A complete pair of assembled and tested speakers with piano lacquered cabinets is available through PBN Audio for **\$9,990**

Price does not include shipping, which will vary by delivery address.

What's proven in the lab will be proven to your ears.
