
PBN DN308 Vintage Direct Pro

GrooveMaster Vintage Direct Professionals, *teamed with the* **PXi Phono Pre-Amplifier** *transcend the existing scale of excellence. From the first hovering notes, you will experience an unbelievably expansive yet subtly defined soundscape—even, some say, "hearing" into the deep silences. Feel that tingle down your spine? That's PBN Audio breathing life into your irreplaceable LP collection.*

Olympia PXi Phono Pre-Amp

PBN DP80 Vintage Direct Pro

The ***PBN DN308 Vintage Direct Professional*** *is an amazing resurrection of a limited edition of professional radio sound booth players. They couldn't be bought, only leased. Noerbaek has searched the globe for these relics of the era when quality was the first consideration, and transformed them into works of audio art—both sight and sound.*

The ***PBN DP80 Vintage Direct Pro*** *is a more compact version of the DN308. Both models are recalibrated to the original specifications, and all original components come from the same unit. The* ***Olympia PXi Phono Pre-Amp*** *is a marvel in itself, being custom-designed to pick up the low output from vinyl recordings and bring them to full glory.*
